# NAGOVOR ŽIRIJE

Fotografsko društvo Jesenice je v letošnjem letu odličen gostitelj mednarodnega fotografskega natečaja z izbranimi temami abstrakcije, prosta črno-bela ter prosta barvna. Kot žiranta me je številčnost prispelih fotografij zelo razveselila, pri nadaljnjem pregledu podob pa mi je bilo v veliko zadovoljstvo ugledati toliko fotografij, ki imajo zaradi prečiščenosti in emotivne teže še povečano dodano vrednost – ne samo v čisto estetski izkušnji, marveč tudi v utripajočem umetniškem naboju.

Prav ta estetska izkušnja podčrtuje izbrana dela teme abstrakcija, kjer so zlasti še nagrajeni avtorji pustili opazovalcu proste misli in prostor za lastno percepcijo ter aplikacijo osebnih občutij. Ravno ta izdelan občutek za fino estetiko in fabulativno občutljivost je močan umetniški potencial, iz katerega bodo avtorji lahko črpali na svoji poti upodabljanja.

Sklop izbranih fotografij teme prosta črno-bela ter teme prosta barvna prav tako pozvanjata v odličnosti in zrelosti prepoznavanja trenutka in sestavljanja fotografske zgodbe v samo eni fabulativno mogočni zgodbi.

Naj sklenem misli s čestitkami vsem avtorjem in nagrajencem, saj mi je bilo srečevanje z navdihujočimi podobami v veselje in odgovorno čast.

# JURY'S SPEECH

Fotografsko društvo Jesenice (Jesenice photographic society) is this year's excellent host of the international photography competition with selected themes, namely abstract free black and white and open colour. As a juror, I was very pleased with the number of photographs received. The reviewing of the images brought me great pleasure, as I saw so many photographs which, thanks to their purity and emotional weight carry added value - not only in pure aesthetics experience, but also in the pulsating artistic charge.

It is this aesthetic experience which underlines the selected works in the abstract theme, where the award-winning artists have left the observer free thought and space for their own perception and application of personal feelings. This elaborate sense of fine aesthetics and narrative sensibility gives it strong artistic potential from which the authors will be able to draw inspiration on their journey of representation.

The set of selected photographs within the free black and white and open colour themes also toll in the excellence and maturity of recognizing a moment and composing a photographic story in merely one narratively powerful story.

Let me conclude my thoughts by congratulating all the authors and prize winners, as observing such inspiring images has been a great pleasure and honour.

# Abstract 2022

The image is a complex digital composition. It features a background of a city street at night, with tall buildings and trees. The scene is heavily layered with semi-transparent, overlapping images of the same street, creating a sense of depth and movement. The color palette is dominated by warm, golden-orange and red tones, which are contrasted with cooler, teal and blue hues. The overall effect is a vibrant, multi-layered abstract representation of an urban environment. The text 'Abstract 2022' is prominently displayed in the upper half of the image in a clean, white, sans-serif font.
